LITTLE CLIPPINGS.

Chicago is about to compel the bur-ial of telegraph wires under the streets. A summons in a breach of promise suit against the bridegroom was sent in among the bridal presents at an Iowa wedding.

At a Keokuk picnic a dead snake was laid across a sleeping man's neck for fun. The fright was all that could have been expected, for he lay half a day in convulsions.

During a storm last month at Norance in Switzerland lightning struck one of two little girls sleeping in the same bed, and instantly killed her, without even touching or awaking the other.

Now it is a Yankee, Mr. Samue Bromley of Mystic River, in the State of Connecticut, who announces his ability to live for ten hours with his nose and mouth hermetically sealed. Where is this thing to stop?

Dr. Germaine has for three year been blind, yet he continues to practice acceptably at Westfield, Mass. His wife accompanies him on his calls, describes to him the visible symptoms of his patients, and assists him in other ways so well that he has lost none of his business.

Race Truck Frauds.

From the Cleveland Herald.

Frank E. Shaw, a pool seller, commenced suit yesterday against Joseph Udell, the owner of Sleepy Tom, to recover \$500 claimed to be due for pools purchased on the 2:23 race in Grand Rapids. The defendant back-ed Kentucky Wilkes against the field, Lucy selling as favorite. Wilkes won one heat, when the Judges suspected that the race was not being trotted squarely, and ordered Lucy's jockey squarely, and ordered Lucy's Jockey to drive het for all she was worth. The threat to expel the jockey had its effect, and Lucy won the race. Udell had not paid for his pools, and when a demand was made for the money, refused it on the ground that he had bargained with Lucy's driver to throw the race in favor of Wilkes, and that the order of the indees compelling the order of the judges compelling Lucy to win had lost the pools for him. He admitted his complicity in the attempted fraud, and urged its failure to carry as ground exempting him from paying the pool seller.

The Sultan's Harem.

The private apartments of the inmates of the Sultan's harem are unathough each fair one has her own "dressing case and spice box" combintoilet is the rule, as is also a common wardrobe, kept under the charge of "the mother" of the seraglio. first wives and the favorites and mothers of male children have special privileges by prescriptive right, and these take the form of personal attendants and the exercise of certain authority; but the majority have no luxuries to make their life enchanting, and few pleasures to relieve its dullness.

There will be a private sale of furniture for the next two or three days at Pete Dalton's residence on Virginia street, two doors from 7-23-3d*

No Watchmaker on the Coast has a bette reputation for fair dealing and excellent work A Card.

OUR CERTIFIED CIRCULATION.

The Reno GAZETTE has an exten sive circulation in the State of Nevada and in other States and Territories. JAMES H. KINKEAD.

Sworn to before me MARK PARISH, this 8th day of Clerk of Wash-oe County. July, 1880.

CAMPAIGN PAPERS.

For one dollar we will send the Daily GAZETTE until November 5th, and the Weekly for fifty cents. IS THAT SO?

The telegraph brings the report that the Robertson process which caused so much talk here last year is working successfully at Washington. The tel-

The Baltimore American editorially announces the great success of the Montgomery gold mine, fifteen miles from Washington, by the use of the California Robertson Electrical Reduction process. The mine had been worked eighteen months by the ordinary stamp process at a loss, because of its rebellious character. A Robertson furnace was recently erected, and the test for the first day's work with it, in the presence of the inventor, Robertson; Vernan Seaman, of San Francisco, President of the Robertson Company; Fulton & Angus, of the American, and many others, yielded \$45 to the ton, at a cost of \$3 50. Fulton & Angus are the principal owners of the property and are greatly elated at their success. The quartz vein, in which abounds sulphurets, has been traced a distance of several miles.

A VERY IMPORTANT MATTER.

The most important business on hand in this county to-day is how to get rid of the locust. Prof. Lemmon, who is authority on this coast, says a very great deal can be done by a combined effort. He says the plan advocated by the GAZETTE is excellent-to turn the eggs under or tramp them to pieces. Where this is impossible he recommends destroying them with a sharp-toothed harrow. If they are turned up to the weather they addle. Every man in the valley should kill every egg he can. The Gods help Then he armed himself with a revolfarmers are lukewarm in this matter, if they say "Well, we can't do enough good to pay for the trouble," and so do noting, we will all suffer together.

RETRENCHMENT

The GAZETTE's suggestion that the salaries of the State officials should be cut down is receiving favorable concut down is receiving favorable con-ches at all. They have watch makers but no body buys of them. The ex-The Genoa Courier says:

"The GAZETTE puts the case tersely and truthfully. We should like to submit the question, what has Capt. Lyon done as Private Secretary to Gov. Kinkead, to earn \$3,000 or more a yeart Probably not ten days' actual labor in a year. His is a purely orhor in a year. His is a purely ornamental effice, and of no earthly use to the tax-payers of this State, who are laboring hard for dollars with which to foot his bills. The same thing may be said of the Lieut. Gov., upon whose hands time hangs heavily. The people should go into the Legislature with a keen pruning knife and lop off these useless branches in order to give the State a thrifty growth."

EDITORIAL NOTES.

Hon. C. S. Varian yesterday tele-graphed stating that Reco was ready ne to the relief of our sufferers by the fire with money and supplies. The Relief Committee decided to ask no outside aid. The generous offer of Reno will be appreciated, nevertheless. Eureks Sentiael.

A young lady of Philadelphia was out walking with a gentleman the other day, when a spark from his eigar set fire to her dress. She died from All persons indepted to I. Fredrick, for the burns she received. This should be a warping to young men not to take ladies with them when they smoke tigars.

Three tramps who were ordered out of Chico went to the public park and for revenge broke down thirty or forty

choice trees. The night police captured them, and now the Caicoans talk of tar and feathers and black snakes.

The Eureka Sentinel has learned that Col. F'air's health has been en-would have a mere walk-over for the Senatorship.

> The Central Pacific is boring a well at the sink hole near Benicia to find if there is any bottom there.

Making a Sea of the Great Sahara.

A difference of opinion exists among European engineers in regard to the practicability of establishing a sea, as now proposed, in the great Sahara, the chief problem being, it would seem, how to keep it up. It is argued that, supposing the sea to be created by means of a canal, it will loose an enormous quantity of water by a year. enormous quantity of water by evap oration every day, without the intro-duction of an equal volume of fresh water. The water evaporated being replaced by a supply coming through the canal, the whole body will soon reach the maximum of saturation; and thus, the evaporation still continuing, a deposit of salt will be formed which in time, must fill up the whole space of the interior of the sea-the salinity of the water being such that no animal life would be possible in it, and the ultimate result being simply the accumulation of an immense deposit of salt. On the other hand, the proectors of the enterprise claim that the presence of this water, and its evaporation, must produce copious rains, which will in large measure return into the sea, and thus not only accom plish the object referred to, but also convert a sterile waste into a fertile

A Typical Yankee in London

One of of the most remarked figures now in London is the Secretary of he American Legation. Mr. Steinway is a Kentuckian, six feet eight in height, and as straight as a rush, thiu ony, mu-cular, 50 years of age, with he most wonderful typical Yankee face and general aspect it is possible to conceive. There is something alost ridiculous in the realization he s, though a Kentuckian, of the Yankee of Punch. When he stands in a room, a full head and shoulders over everybody, all eyes are on him. As a witty Iri-h M. P. said, the lean giant looks hollow enough to swallow any quantity of principle. He knows he is a remarkable figure, and meets the arrused and admiring glances with a twinkle of the eye which seems to come from the stars.

Too Proud to Beg.

William Ellwood was actually too proud to beg and too honest to stea!. He was traveling afoot in Ontario, rying in vain to get orders for agricultural implements. Finding himself without a cent, and having eaten nothing for two days, he hid himself in a barn and resolved to starve to He was discovered when almost dead, bp a former who would willingly have fed him for the ask-

A New Way to Collect Assessments.

Blakewell, the originator and manager of a Leadville mining company, made his assessments so heavy and frequent that the stockholders finally refused to put in any more money. those who help themselves. If our ver, and started out avowedly to collect or kill. He found several of the stockholders in a barroom. They re-tused to pay, and he badly wounded two before receiving a fatal bullet himself.

Pensylvania is celebrated, among own or use fewer watches than perhaps any other. Some towns, well oft in other respects, have or use no watplanation is that Pennsylvania puts personal tax on the ownership of wat ches in use. On the statute book there are forms of taxation that are fruitful or unfruitful in individual cases, according to the elasticity of the citizen's conscience.

Of the proposed wagon road to Bo-die the Carson Times says: The proposed wagon road between Bodie and a point on the Carson and Colorado Railroad at the northern end of Walker Lake is to be begun at once Forty laborers leave Carson for the Five Mile House, at which point one end of the road will be started immediately.

A Printer Run Over.

A printer named Thomas O'Brien. while drunk, was run over by the switch engine in Truckee Thursday night, which crushed his left arm so badly that it had to be amputated.

Louis, a six-year-old son of L. W Dreyfuss, of Nevada City, was accidentally scalded to death Thursday afternoon by falling into a large vat of boiling water.

No one peed suffer with neuralgus or tooth ache. A few drop of Mrs. Dr. Howe's calethe pain and save the tooth. | jan27-alm more than six months, are earnestly requested to pay their bills.

Wm. Goeggel the watchmaker, received two silver medals from the Mechanics' and Am rican instatute of New York for constructing une time pieces.

AN A.CC_UNT OF THE HUPPER.

or Lemmon Makes a Circuit o the Valley in the Interest of Science

A GAZETTE reporter spent yester day with Professor J. G. Lemmon, of Oakland, in investigating the grasshopper question. The Professor is the highest authority on this coast on that point. The trip included Kelly's and Sullivan's ranches and took in the whole center of the valley. The hopper which is doing the most damage here is not the one that devastated Sierra Valley. That was the yellow one, and is called Atrox, or the Atrocious Locust. It is dis inguished from the other species pezotetix by having no spine on the throat. The brown locust bas a short spur, or spine, on the throat, while the yellow one has only a small, round Adam's apple. The Atrox is not numerous enough this year to do much harm, but it is laying eggs, and next year may be dangerous. The brown one, which is eating the fruit trees on the Virginia road did very little damage in Sierra Valley. A big green locust is eating the trees on I. P. Johnson's ranch. The Professor gives

HIS HEARTY ENDORSEMENT

to George Alt's plan of attack. He says by all means plow up the nests wherever it is possible, after the insects are done depositing eggs. Plow about four inches deep, and then do not harrow or touch the ground again, The pe lest the eggs be brought so near the surface that the insect can force its way out after hatching. Where the ground is rocky he advises that corrals be built and cattle fed there so as to tramp up the ground and crush the because the hoppers that hatch out in the sage bru-h cannot travel early the sage bru h cannot travel early enough to reach the alfalfa in time to injuse the first crop, and

IF NONE HATCH OUT

in the fields, there will be none to feed there until they can fly in from the outside. Farmers cannot afford to nize it as the same show. It include neglect this matter. Even though quite an extensive menagerie. The little, all combined can do a great deal. There are many new points learned here that did not appear in Sierra Valley. A swarm of the yellow species was found laying eggs on a sandy knoll above James Sullivan's house. The Professor said they usually chose harder ground, that did not cave in on them. There is danger that the yellow fellows will increase enough to cover the country next year. A number of dangerous enemies are likely to follow them, too; animals that feed on them. One is

A WASP THAT STINGS THEM

and then drags the body away and buries it carefully. This festive little trees. He will have his day, but it will not be a long one. The Professor finds enemies to the hopper here come. also, which will doubtless do good service in destroying them. The red mite, which he described in his report from Sierra Valley, was seen several times yesterday. It and other insects destroy vast numbers of them. To-day the Professor went to Franktown and found the hoppers there heavily parasited. The Atrox has been there disappeared, but the Fezotetix is abundant. The Professor is a very interesting traveling companion. He is an enthusiastic botanist, there is nothing on this coast he has not seen, between Alaska and Mexico. The commones weed is more interesting than a novel eyes. The Professor goes to Alaska next summer with John Muir.

PERSONAL.

COLE'S CIRCUS.

Arrival of the Great Show-The Parade and the Afternoon Performance

Cole's great circus and managerie arrived from Winnemucca this morning at about 9 o'clock. A special train of 23 rars of twice the usual capacity onveys the show from place to place. The tent was early spread on the corner of Chesnut and Fifth streets, Lear the new school house, in readiness for the afternoon's performance. The parade at noon was an attractive and imposing spectacle. A good band of ten pieces, in a handsome chariot, drawn by a team of eight camels led theprocession. Next followed the equestrians, five of them ladies, riding two by two, and well mounted. A team of four white horses, harnessed abreast drew a Roman car in which a lad stood and held the reins. Four clephants walked in the procession, and phants walked in the procession, and two camel-jogged after them. It was remarked of the Arab who walked beside the camels that he had thrust his legs a long way through the trousers that he wore. A thrilling feature of the exhibition was the cage containing three lions, in which their tamer was calmly seated on a stool, apparently indifferent to danger. The wagon containing the snake charmer, holding in his hands a monstrous reptile, while others coiled about his feet, was also a blood-curdling specta-cle. It would require more space than the GAZETTE has at disposal to enumerate all the attractive features of the parade. It was by far the finest exhibition of the kind ever seen

The performance in the tent this afternoon was well attended, the audience mostly consisting of ladies and children. The exhibition of the elecchildren. tric light was a very intere-ting novelty to nearly everyone present. This evening it can, of course, be observed eggs. Where the nests lie in a field of grain or alfalfa, a sharp harrow can be run over the ground without injury to the ground with the ground with the ground without injury to the ground jury to the crop, and the nests will be destroyed. When the eggs are disturbed they seem to addle. He strongly recommends the destroying of every nest that it is possible to reach, for the reason not only that there are then less months to fill but most daring exhibition of skill and there are then less mouths to fill, but most daring exhibition of skill and nerve. It was done simultaneously with brilliant feats by gymnasts on trapeze suspended beneath. Frank A. Gardner, the champion gold medal bare-bare bare, commanded admira-

tion by his splendid horsemenship. Cole's circus was here seven years age. It has since been so much improved that no one could now recogeach one may think he can do but little, all combined can do should go to see the wild animals

Fine Prospects.

The Carson Tribune says J. H.Kinkead bought pans for the now mill, at the railroad shops there. Mr. Kinkead bought some second-hand pans of Hill but none at the shops, A new double Huntington crusher has been ordered of the largest size. The comers at the Emma mine that are as good as new, which will be moved out cuss, as Artemus Ward would call to the Jones & Kinkead. The prosbim, increases as the herds of hop-pers on which he feeds multiply, and stockholders. Jones and Kinkead Jones and Kinkend when they disappear he attacks fruit derful tenacity, and they ought to get Reno will be benefit. red immensely if dividends begin to The stock is held here almost entirely, and the money instead of go ing to San Francisco will be used to build pleasant houses, mills and stores in Reno,

A Victors Looking Cucumber.

Orrin C. Ross walked into the GAZETTE office this morning, carrying curious looking "outfit" on his arm. Whether it was dead or alive was question. It took some time to decide whether it belonged to the animal or the vegetable world. It was over four feet long, but was curved up like the Virginia and Truckee railroad. Its general appearance was like a big green anake a couple of inches thick. It proved to be a new brand of cucum ber, although no resemblance could be found between it and a common one. Mr. Ross says it is an excellent variety, and promises to be a great addition to Nevada's family of cucurbitaceous plants. The man who sent the seed told Mr. Ross it would attain a length of two feet, but in "this glorious climate" it has just doubled its record.

Hints to Parents,

The Carson Appeal has found it ab olutely neces-ary to fix up a birth schedule. Each father believes that

sends around cake and wine gets the weight of his baby fixed at sixteer pounds, and occasionally the beauty of the child is dilated upon.

A MURDERER CAUCHT.

The Capture of an Escaped Criminal After Eighteen Months of Liberty.

In October of last year a man came this neighborhood ever since. Some weeks ago a resident of Reno saw the man and thought he recognized him as the person who committed a murder in Middletown, Lake county, California, about eighteen mouths ago, who had escaped from jail, and for whose apprehension a reward had been off-red This person made known his suspicions to Deputy Sheriff Dute Gray. Gray spoke to Constable Avery about the man and found that Avery was also on his track. A telegram sent to Middletown, Cal., and the answer said that a man corresponding to the description of Seymour had escaped from the authorities there. In the meantime the suspected person had taken the alarm, and was watching the officers. As soon as they heard from Middletown they determined to arrest im. They found their man on the V. & T. railroad bridge. The officers approached him quietly, one from each end of the bridge. They had a war-rant for his arrest on the charge of vagrancy. He made no resistance the arrest, although he had a big sixshooter in his pocket.

Word was sent to Middletown for some one to come here and identify Sheriff Peter Burtnett the prisoner. arrived here this morning. He iden-tified the prisoner as Thomas Dye, who was imprisoned in Lake County on a charge of murder, and had broken out of jail, since which time the authorities had not heard of him. Sheriff Burtnett went to Carson this morning to get the necessary requisition from the Governor for the prisoner. He He will take Dye to California with him this evening.

Dye is apparently about thirty five years of age, with black eyes and black hair. He is called good looking. It is said that he is a nephew of the infamous Troy Dyc. The officers get \$400 reward for his ar-

FLAT CONTRADICTION.

Governor Kinkead and J . Babcock Re ply to the Attorney-General's Card.

The following card appears in this morning's Enterprise :

EDITOR ENTERPRISE: Respect for myself requires a reply to the card of ncipation. It was his report to the Board of Examiners, not that of either of the other members. His only obdelicacy he thought it best and proper that it should appear as the report of other members. He was distinctly requested to note and append to the report any objection he might have thereto. He said he had report to the report any objection he might have thereto. He said he had report any objection he might have the report of the report any objection he might have the report of the report any objection he might have the report of the re thereto. He said he had none. This statement can and will if necessary, be nbstantiated by the affidavit of two disinterested parties.

JOHN H. KINKEAD. Chairman Board of Examiners. Having read very carefully the bove statement of Governor Kinkead, I unhesitatingly confirm in every res pect, the facts as therein set forth. JASPER BABCOCK,

Member Foard of Examiners. Carson, Nev. Aug. 20., 1880.

EVIL COMMUNICATIONS.

A Foolish Girl Led Away by Bad Con panions.

A fourteen-year-old daughter of a Carson black-mith, who has been visiting some friends of her family in Reno, left here on Saturday for home. Instead of going there direct she stopped at Steamboat and was joined in the ternoon by a young fellow from here and another girl, and they spent the day agreeably to themselves. On Sunday a couple of sports came down from Virginia and joined the party Under promise of marriage, the Carson girl paired off with one of the hood lums from Virginia. On Monday Rapp Bros. became suspicious and

ORDERED THEM AWAY Attorney General Murphy, published from the place, and they walked up on the 17th instant, and circulated ex the Geiger grade to the 5-mile house. tensively throughout the State. I do Here her, newly-made acquaintance most emphatically reaffirm and assert left her after borrowing all the jewelry that the Attorney General did, at the he could coax away from her, promis meeting of the Board of Examiners, ing to come for her with a buggy. She on the 13th instant, not only concur is the report in controversy, but did also authorize the other members of the Board to so state publicly. The facts in regard to the matter are briefly these:

The report referred to an analysis of the Board to so state publicly. The aud marry her on Sunday, but he dispute the series of facts in regard to the matter are briefly these: The report referred to was written in the office of the Attorney and with his concurrence and parties. She repeated her story in court and was taken home to Carson. Her father came over here after her clothes and found them in a house in jection to signing it was that the the west end of town. He had to get Board was sitting in some measure in a search warrant, and he and Captain judgment upon himself as well as the Avery unearthed them. There are State Treasurer, and from motives of some young hoodlums here, of both

Superintent of Instruction.

In answer to the solicitations of a large number of Republicans, the Rev. W. R. Jenvey has allowed his name to be announced as a candidate before the Republican Convention, for the office, Superintendent of Public Instruction. Mr. Jenvey is a thorough make your purchases call as scholar and has had a great deal of experience as an educator. He has been merchant, soldier, bookkeeper, stunever done anything yet but what dent, teacher and minister, did it creditably. About the only thing to be said against him is that he is a brother-in-law of the Ga-ZETTE's proprietor, but that should seally not count against him, as he was not a party to the scheme and was not consulted. Mr. Jenvey will be an intelligent officer, and if elected will do his best to maintain, and if possible, elevate the standing of the public schools in Washoe county.

A Fatal Fall From a Train. John E. Owens, a telegraph opers tor on the Nevada Central Railroad, fell from the special circus train, east of Battle Mountain, last Wednesday night, and was instantly killed. deceased was about 24 years old. He leaves a mother at Winnemucca.

A Solid Bank.

Oscar Adams of Washington, D. C. U. S. Bank Examiner, dropped into the First National Bank this morning very unexpected y, and made a thorough examination of the bank's affairs. He found it on a good foundation,

REPUBLICAN PLATFORM.

Following is the text of the resolutions adopted by the Republican National Conven-tion on Saturday, June 5, 1880:

adopted by the Republican National Convention on Saturday, June 5, 1880:

Republican rule has restored upon a solid basis payment in coin for all the national obligations, and has given us a currency absolutely good and legal, and equal in every part of our extended country. It has fifted the credit of the nation from the point where six per cent bonds are eagerly sought at a presium. Under its administration railways have increased from \$1,000 miles in 18.0 to more than \$2,00 miles in 1879. Our foreign trade has increased from \$700,000,000 to \$1,-150,000,000 in the same time, and our exports, which were \$20,000,000 more than our imports in 1860, were \$20,000,000 more than our imports in 1860, were \$20,000,000 more than our imports in 1870. Without resorting to louns it has, since the war closed, defrayed the ordinary expenses of government, besides the accruing interest on the public debt, and disbursed annually more than \$30,000,000 for solders pensions. It has paid \$80,000,000 of the public debt, and by relunding the balance at lower rates, has reduced the annual interest charge from nearly \$151,000,000 to less than \$20,000,000. All the industries of the country have revived; labor is in demand; wages have increased, and throughout the entire country there is evidence of a conting prosperity greater than we have ever enjoyed. Upon this record the kepublican party asks for the continued confidence and support of the people, and this convent. In submit for their approval the following statements of the principles and purposes which will continue to guide and inspire its efforts:

ENUMERATION OF PRINCIPLES.

ENUMERATION OF PRINCIPLES.

Pirst. We sfill me that the work of the last twenty-one years has been such as to commend itself to the favor of the nation, and that the fruits of the costly victories which we have achieved through immense difficulties should be preserved. That the peace regained she allo be cherished. That the dissevered Union, now happily restored, should be perpetuated, and that the liberties secured to this generation should be transmitted undiminished to future generations. That the order established and the credit acquired should never be imperiled. That the peasions promised should be paid. That the debt so manch reduced should be extinguished by the tuil payment of every dollar thereof. That the reviving industries should be further promoted, aff that the commerce already so great should be steadily encouraged.

Second The Constitution of the United States is the supreme law, and not a mere compact. Out of the confederated States it made a sovereign nation. Some powers are ENUMERATION OF PRINCIPLES. compact. Out of the confederated States is made a sovereign nation. Some powers are canned to the nation, while others are retained by the States; but the boundary between the powers delegated and those reserved is to be determined by national and not by State tri-

determined by national and not bunnis.

Third. The work of popular education is one left to the care of the severa! States, but it is the duty of the national government to aid that work to the extent of its constitutional-bility. The intelligence of the nation is but the aggregate of the intelligence in the several states, and the destiny of the, nation must be guided, not by the genius of any one State, but by the Everage genius of all.

NON-SECTABLAN SCHOOLS.

Fourth The constitution wisely forbids

Non-SECTARIAN SCHOOLS.

Fourth. The coust tution wisely forbids Congress to make any laws respecting an establishment or religion, but it is idle to hope that the nation can be protected against the influence of sectarianism whise each State is exposed to its particular domination. We therefore recommend that the constitution oe so amended as to lay some prohibition upon the Legis, attree of each State, and to forbid the appropriation of public funds to the support of sectarian schools.

Fifth. We reaffirm the belief avowed in 1876, that the duties levied for the purpose of revenue should be so discriminate as to facor American labor. That no further grant of the public domain subuld be made to any railroad or other corporation. That slavery having perished in the States, its twin barbarity polygamy, must die in the Territorics. That everywhere the protection accorded to a citizen of American brith must be secured to citizens of American brith must be secured to citizen with the substitution of the composition of the men who preserved its integrity in the day of battle are undiminished by the lapse of niteen years since their final victory. Their perpetual homor is and shall forever be the grateful privilege and the sacred duty of the American people.

merican people.
THE CHINESE PLANK Sixth, Since the authority to regulate implication and intercourse between the United States and foreign nations rests with the Congress of the United States and the treaty-making powers, that the Republican party, regarding the unrestricted immigration of the "hinese a matter of grave concernment and under the exercise of both these powers would imit and restrict that immigration by the enactment of such just, humans and reasonable laws and treaties as will produce that result.

onable laws and treaties as will produce that result.

Seventh. That the purity and patriotism which characterized the earlier career of tutherford B. Hayes in peace and war, and which guided the thought of his immediate producesor to him for a Presidential candidate, have continued to inspire him in his career as chief executive, and that history will accord to his administration the honors which are due to at efficient, just and quarage as fulfillment of the public business, and will honor his interposition between the people and proposed partisan laws.

INQUITIES OF THE LEMOGRACY.

Eighth. We charge upon the Democratic party the habitual sacrifice of justice and patriotism to a supreme and insariable lust for office and patronage; that to obtain possession of the national and state governments and of the control of place and position, they have obstructed all the efforts to preserve the purity and conserve the freedom of suffrage; have favised iraudulent certificates and returns; have labored to unseat lawfully elected members of cougress, to secure at all hazards the vote of the majority of states in the flones of Representatives; have endeavored to occupy by force and fraud places of trust given to others by the people of Maine, and rescued by the courage and action of Maine's pairiotic suns; have by methods vicious in principal and tyrampical in practice, attached partisan legislation to appropriation bills; have crushed the rights of individuals, and vindicated the principles and sought the favor of rebellion against the nation, and have endeavored to obliterate the sacred memories of the war and to overcome its inestimable good results—freedom and individual equality. We affirm it to be the duty and purpose of the Republican party to use all the legitimate means of this Union to secure the perfect harmony which may be practicable, and we submit to the practical, senseble people of the United State to say whether it would not be dangerous to the be-t interests of our country at this time to surrender the administration of the national government to a party which seeks to overthow, the existing policy under which we are so pro-perous, and the left in the control of the control of the outcome and hope. INIQUITIES OF THE LEMOCRACY.

Sheriff's Sale.

IN THE SECOND JUDICIAL DISTRICT

Court in and for Washoe County, State of Neyada.
Casimiro Pazzi, plaintiff, vs. Francisco Vaienzuela, defendant.
Under and by virtue of an execution issued in the above cause and out of above Court on the 28th day of June. A. D. 1890. duly tested, and to me directed and delivered, on a judgment recovered by the above named plaintiff, and against the above named defendant, on the 28th day of June. 1880, for the aum of \$380 ff and interest thereon at the rate of 10 per cent per annum until paid; besides for his costs, now amounting to \$123 30, and accruing costs, I have on the 22d day of July, 1880, levied upon: Thirty five (85), more or less, tons of loose hay in the stack, and one stack of wheat, cont-ining about two tens when threshed, and i hereby give public notice, as required by law, that on.
Monday, the 23d day of August, 1880,

fonday, the 23d day of August, 1880 Monday, the 23d day of August, 1880, Between the hours of 9 o'clock A.E. ad So'clk P.M., to wit: at 10 o'clock A.E. ad So'clk P.M., to wit: at 10 o'clock A.E. ad So'clk P.M., to wit: at 10 o'clock A.E. ad Soich of Steamboat springe, Washoe County, Nevada, I will sell at public auction to the hignest and hest bidder for ash in hand, the above described personal property, or so much thereof as may be necessary to Satisfy this writ of execution.

REPUBLICAN

R. H. TAYLOR, : : : STOREY O. H. GREY, : : : WHITE PINE

A. E. MORTON, : : ESMERALDA

PRESIDENTIAL ELECTORS:

FOR JUDGE OF THE SUPREME COURT!

ROLLIN M. DACGETT.

Resolutions Adopted by the Re-

publican State Convention: RESOLVED, That the platform of principles

RESOLVED. That the platform of principles adopted by the National Republican Convention, at Chicago June last, deserves and receives the approval and hearty indorsement of all the Republicans of Nevada.

RESOLVED. That the hordes of Chinese that are coming in upon our shores to eat out our substance are destroying our country, impovershing our mines, mining and laborers. debauching our youth, and mak ng both men and women lower in the scale of humanity. This evil must and shall be stopped, and to this end we pledge the entire strength of the Republican party.

In the language of our great leader, we regard the immigration of Asiatics to the United states as little less than a servile invasion. Should the Commissioners now in negotiation with the Chinese Government fair to secure by the direct of next January such

vasion. Should the Commissioners now in negotiation with the Chinese Government fail to secure by the first of next January such medification of the Burlingame Treaty as will practically put an end to the influx of Chinese to this country, we demand that the treaty then be promptly annulled, and such laws enacted as will relieve us at once and forever of the Asiatic scourge now menacing the well-being of the Republic.

RESOLVED, That we most heartily indorse the general financial policy of the Hepublican party, which, in spite of every opposition on the part of the Democracy, has led to the resumption of specie payments, the raising of our national prosperity. But we also demand the complete restoration of silver coin to its former position by the side of gold: and for the purpose of attaining that end we hold it to be the dury of the veneral Government, through the authorization of Congress, to coin into standard dollars or other legal tender currency, at the cost of colusge, and for the benefit of the producer, the entire silver product of the country, relieving the mining industry irom the loss attending the sh puent to and sale of silver builton in foreign markets.

dustry from the loss attending to and sale of silver bullion in foreign markets.

As mining for the precious metals is the leading industry of Nevada, we are inflexibly opposed to the bill reported by the Committee on Mines and Mining, and now before the House of Representatives, prohibiting the following of fissure veins or deposits beyond the vertical lines of surface boundaries; and we urge our Representatives in both House of ongress to Continue their effects for its defeat. Such a restriction would work disaster to the inbors of the prospector, and seriously retain the development of the mineral riches of the West, and we corolally indose the action of our Representative, the thom. K. M. Daggett, in his behalf.

Resolved, in this behalf.

Resolved, the the right and only of State and Terriforfal Legislatures to regulate and restrict the charges of railroads exclusively within their respective boundaries, and that it is no less the constitutional right than the positive duty of Congress to regulate the railfix and restrict the charges of inter-State railroads.

Esolved, That while we congratulate the

tariffs and restrict the charges of Inter-State railroads.

1 EsolvED, That while we congratulate the country on the successful resumption of specie payments, and the splendid financial condition of the Republic, we are in favor of restricting the issuance of National and State least han five dollars, thus retaining an ficceased home demand, as a circulating medium, for the precious motals which our mines are annually yielding.

HESOLVED, That Gen. James A. Garfield and Chester A. Arthur, by their services to the country, by their devotion to principe, and by their unspotted reputation as men and as citizens, are deserving of the united and earnest support of all the loyal people of the United States for President and V.ca, Peristent thereof. We rejoice in their nomination, and we piedge to them the electoral yote of Nevada at the casuing election, by an overwhelming majority.

reat all Chronic and Special Dise YOUNG MEN

WHO MAY BE SUFFERING FROM the effects of youthful follies or indiscretion, will do well to avail themselves of this, the greatest boon ever laid at the alter of suffering numanity. DR. SPINNEY will guarantee to forfuit \$500 for every case of seminal Weakness or private disease of any kind or character which he undertakes and fails to cure.

MIDDLE-AGED MEN.

MIDDLE-AGED MEN.

There are many at the age of thirty and sixty who are treabled with too frequent exacuations of the bladder-often accompanied by a slight smarting or burning sensation and a weakening of the system in a manner the patient cannot account for. On examining the urinary deposits a ropy sediment will often be found, and some small particles of albamen will appear or the color will be of a thin milkish hue, again changing to a dark and torpid appearance. There are many men who die of this difficulty, ignorant of the cause, which is the second stage of seminal weakness. Dr. S will gnarantee a perfect cure in all such cases, and a healthy restoration of the genito-urinary organs.

Office Hours—10 to 4 and 8 to 8. Sundays from 10 to 11 a. N. Consultation Free, Thorough examination and advice \$5.

P. S. For private diseases of short standing a full course of medicines sufficient for a cure, with necessary instructions, will be sent to any address on receipt of Ten Dollars.
